

# What People Are Saying About Vertique™

With a Vertique™ case picking and conveying system, distributors are managing and moving their inventories more productively and profitably than ever before. That's because, unlike conventional systems, the revolutionary Vertique system lets you select the right level of automation for your specific needs. The result: improved picking and conveying, better utilization of space, fewer errors, faster delivery, and a higher return on investment.

- » *"Because our previous installation at Chesbay was such a success, we installed another Vertique system at our Knoxville location. As a result, we reduced direct labor and overtime costs, reduced turnover, improved order accuracy, and cut our delivery times."*

*George B. Sampson  
President, Cherokee Distributing Co.*

- » *"With the Vertique system, we've been able to consolidate multiple warehouses much more efficiently. We've reduced our warehouse costs and improved the accuracy of our orders."*

*Jay Martin  
Vice President of Operations, J.J. Taylor*

- » *"We've not only seen improved accuracy, but a significant reduction in delivery costs. That's because the Vertique system allows our cart delivery system to "build-by-stop." It's much more cost effective."*

*Chuck Ricci  
President, Chesbay Distributing Co.*

- » *"We installed the Vertique system at our Chicago Beverage Systems site and it's made a tremendous difference in our overall operation. Our order accuracy has improved, and we've reduced our warehouse labor and delivery times."*

*Ray Guerin  
Senior Vice President of Operations,  
Reyes Holdings*

»» *"Installation of the Vertique system has allowed Houston Distributing Company to reduce labor costs, improve order-filling accuracy, and reduce delivery expenses as the company expanded its market."*

*Perry Parsons  
Executive Vice President/General Manager,  
Houston Distributing Co.*

»» *"A recent acquisition caused a rapid growth in our picking requirements. Although we are one of Vertique's smaller-volume distributors, together, we were able to develop a Vertique system that has reduced our warehouse labor, improved the accuracy of our 'build-by-stop' orders, and made our delivery operations more efficient."*

*L. Wayne Sanders  
President, Fredericksburg Distributing Co.*

With the Vertique system's vertically designed storage towers, you can redefine the way you take your product to market. It's the only custom vertical case picking and conveying system in the world that simultaneously picks, stores, and replenishes orders, while improving your warehouse and delivery efficiencies. The customized Vertique solutions pick up where others leave off.

Why not let Vertique custom design a Vertique solution for your warehouse and join the growing list of satisfied customers? Call us today or log onto our website for more information.
